Process Change Notification

Date: Friday, October 24, 2014

PCR Reference: 392

PCN Reference: 392-PCN90-Public

To Our Value Customer:

As always we appreciate your use of International Rectifier semiconductor products. Our commitment to customer satisfaction and continuous improvement is demonstrated by our change plans to enhance capacity, quality and reliability. This notice is to inform you of the following changes.

We would like to express our sincere appreciation for your cooperation regarding the following changes, and IR will work closely with you to support your requirements during this transition.

Type of Change Notification:

Qualification of a new wafer source

Description of Change:

Gen 8P -30V Micro 8, Qualify Tower foundry

Reason for the Change:

New Fab site

Effect Date:

Thursday, January 22, 2015

International Rectifier will consider this change approved and will implement it by the effective date unless specific conditions of acceptance or data requests are provided in writing within 30 days of receipt of this notice. Please submit conditions of acceptance and data requests to the PCN coordinator listed at the end of this notice.

Impact of Change:

There will be no impact to the fit, form or function of the parts. There will be no change to the

datasheet parameters.

Method of Identifying Changed Product:

Datcode and Lotcode information

Products Affected:

IR Part	Description
IRF7726TRPBF	MOSFET, P-CHANNEL, -30V, -7A, 26 mOhm, 46 nC Qg, Micro 8

Qualification:

Parts passed all the reliability testing requirements. Reliability qualification report is available upon request. Qualification standards can be found on International Rectifier's web site at www.irf.com/product-info/reliability

Supporting Data Availability:

Contact IR for supporting data on this change.
