

Cypress Semiconductor Corporation, 198 Champion Court, San Jose, CA 95134. Tel: (408) 943-2600

PRODUCT INFORMATION NOTIFICATION

PIN: PIN152603

Date: June 29, 2015

Subject: Qualification of Test 25 (Austin, Texas) as an Additional Wafer-Level Test Location.

To: PCN ADMIN
CYPRESS
pcn_adm@cypress.com

Change Type: Major

Description of Change:

Cypress announces the qualification of wafer-level test operations at Test 25 (T25, formerly a Spansion, and now a Cypress, wafer-level test site) in Austin, Texas, USA for the Cypress products that are currently being tested at King Yuan Electronics Co., Ltd., (KYECC) Taiwan and Cypress Minnesota, Inc. (CMI), Bloomington, Minnesota, USA. There will be no changes to the tester platforms, test program coverage or test methodologies.

This qualification will allow Cypress to leverage T25's manufacturing expertise and quality focus. This in turn also provides the means for Cypress to continue to meet its customers' IC testing needs as well as delivery commitments in dynamic, changing market conditions. T25 is certified on several international quality standards: ISO / TS16949, ISO 9001, ISO 14001 and OHSAS 18001.

Benefit of Change:

This change will allow Cypress to take advantage of T25's world class manufacturing expertise and quality focus. This will also expand the test capacity of Cypress to support faster delivery of these products to Cypress's customers.

Affected Part Numbers: 412

Affected Parts: Please see the attached file for the list of parts affected by this notice.

Qualification Status:

T25 has been qualified through a series of tests documented in the Qualification Test Plan (QTP) 151907. The qualification report can be found as an attachment to this notification or by visiting www.cypress.com, and typing the QTP number in the keyword search window.

Approximate PCN Implementation Date:

This change will be implemented from the date of this notification. All shipments of the affected part numbers listed above will be tested at T25 or at other approved wafer-level test sites.

Anticipated Impact:

Products that will be tested at T25 will be completely compatible with existing products from a functional, parametric, and quality performance perspective.

Cypress also recommends that customers take this opportunity to review these changes against their current application notes, system design considerations and customer environment conditions to assess impact (if any) to their application.

Method of Identification:

Cypress maintains traceability of product to wafer level, including wafer fabrication location, through the lot number marked on the package.

Response Required:

This is an information announcement only. No response is required

For additional information regarding this change, contact your local sales representative or contact the PCN Administrator at pcn_adm@cypress.com.

Sincerely,

Cypress PCN Administration
