TO: All Customers **FROM:** Global Marketing MLCC

HEREWITH YOU ARE INFORMED OF OUR INTENTION TO CHANGE THE FOLLOWING PRODUCTS.

DESCRIPTION:

1. To improve DC bias and bending performances, Yageo modifies dielectric layer design for the range of AC/X7R/0603/50~100V/392~103. MP schedule for new design is from Jun. 1st, 2019.

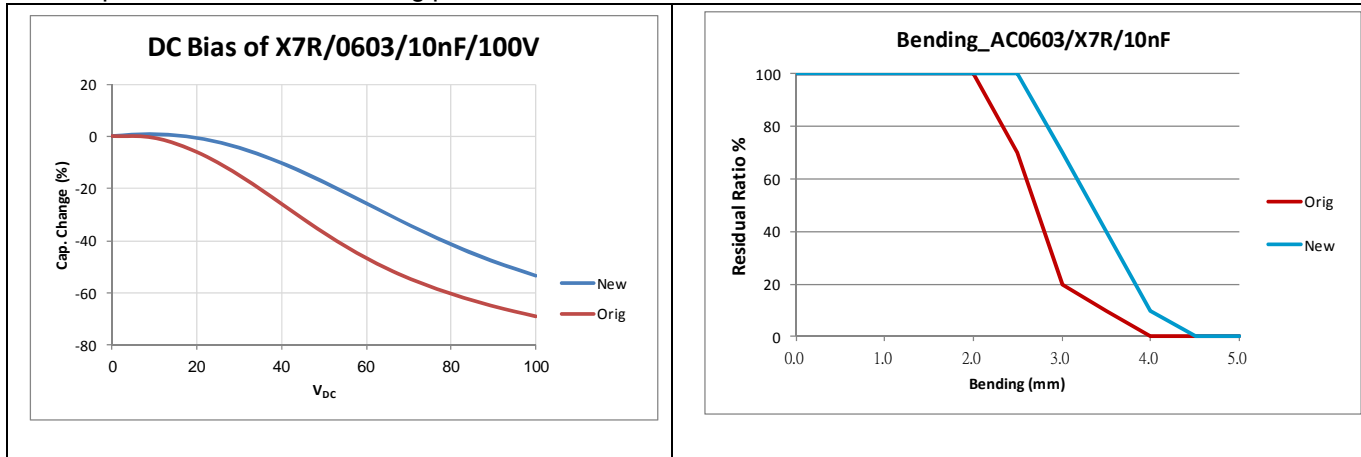

The affected part numbers are listed as below table. The list might not show all existing PN due to different packing code or capacitance tolerance. Please refer to product range description as standard.
